

P40021

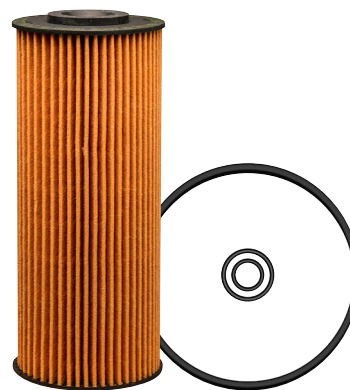

Lube Element

NEW RELEASE

Isuzu medium-duty trucks perform a lot of stop and go duties plus can see a lot of idle time which doesn't allow the engine to use and burn fuel at its most efficient levels. Excess fuel and contaminants can add excess stress on an engine oil system. The P40021 lube filter protects your medium-duty engines with efficiency and contaminant holding capacity that matches the expected drain intervals of the OE product.

APPLICATIONS

Isuzu 4JJ1-TC Engine, ELF 200/300 with 4JJ1-TC (3.0L) Turbo Diesel Engine (Mexico), NPR, NPR Eco Max, Reach with 4JJ1 (3.0L) Engine
